A maximum of five million options are expected to be awarded, corresponding to five million new issue shares in the Benetton Group, equivalent to 2.75% of the share capital; 50% of these are exercisable two years after award date and the remaining 50% four years after award date.

The options will only be exercisable subject to achievement of the objectives for creation of accumulated value envisaged in the 2004-2007 Guidelines, presented to the financial market in December 2003.

The shareholders' meeting also approved a series of changes to the Company memorandum and articles of association to bring these into line with new company legislation.

The Board of Directors, meeting after the shareholders' meeting and in application of the authorised powers, resolved to increase the share capital by a total of euro 4,203,650.10, corresponding to 3,233,577 shares, following the award of a total of 3,233,577 options.

The subscription price of the shares is the arithmetic average of the price on the Milan Stock Exchange in the last month (from 9 August to 9 September).

The criteria for awarding the options were approved by the Board of Directors as proposed by the Remuneration Committee, following rules which take into account the position held by the beneficiary in the organisation and the importance of this position to the achievement of the objectives for the creation of value associated with carrying out the 2004-2007 Guidelines.
